DETAILED ACTION

1. This Office Action is a response to the communication dated 04/01/2003. Claims 1-32 are pending in the application. In the communication dated 04/01/2003 Applicants provisionally elected claims 1-25 for prosecution. Claims 26-32 are withdrawn from consideration. Elected claims 1-25 are subjected to further restriction. In a response to this Office Action, Applicants are required to elect a distinctive invention corresponding to the embodiment, figure and claims for prosecution on the merits.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention as following:

Embodiment 1 described in page 21, line 19 to page 23, line 11, corresponding to Fig. 10 and claims 1-12.

Embodiment 2 described in page 23, line 12 to page 24, line 29, corresponding to Fig. 11 and claims 13-19.

Embodiment 3 described in page 25, line 1 to page 26, line 2, corresponding to Fig. 12 and claims 20-25.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

4. Applicant is advised that a reply to this requirement must include an identification of

Art Unit: 2666

the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
